

ABILITY Simplifies Medicare Claims Resubmission, One Keystroke at a Time

Your customers will love how much time they save using **ABILITY EASE** Medicare to resubmit claims.

Resubmitting Medicare claims using traditional DDE takes your customers a lot of time. **And a lot of keystrokes: 30 plus keystrokes needed to correct a claim.**

Now compound that process with a sluggish computer or internet, a must-take phone call or some other time-consuming interruption.

21 CORRECTIONS Queued claim from Meditech

Why do all this?

With **ABILITY EASE** Medicare, these speed bumps no longer matter, because with only eight keystrokes needed, resubmitting those claims takes less time than ever.

When you can just do this:

1. Log in to myABILITY
2. Launch EASE Medicare through SSO
3. Select Advanced Search
4. Paste PCN
5. Open Patient Information Page
6. Select wrench icon to correct and open UB-04
7. Make corrections
8. Adjust or Resubmit
