

ABILITY SMARTFORCE Physician

is a 100% cloud-based and fully mobile scheduling application that simplifies the unique challenges associated with scheduling physicians. This powerful rules-based application streamlines the process of creating and managing fair and balanced schedules for providers. With ABILITY SMARTFORCE Physician, staffing coordinators and physicians get an automated, collaborative and simplified way to handle scheduling.

ADVANTAGES FOR YOUR ORGANIZATION

PHYSICIANS

- **View and manage your schedule** anytime, anywhere from your mobile phone, tablet, computer or through our powerful native apps for iOS and Android.
- **Track your commitments** and view shifts that help you fulfill them.
- **Get instant notifications** about open shifts and announcements.
- **Indicate your availability and preferences** in real time.
- **Offer shifts** to another qualified staff member or **request shifts**.
- **Replace phone calls** with more effective communications.
- Manage your work schedule through **your preferred calendar application**.

MANAGERS/SCHEDULERS

- **Predefine scheduling patterns** using templates and rules engine.
- **Automatically generate draft schedules**, taking into account commitments, count requirements, weekend requirements, consecutive days, gaps and customized preferences.
- **Have instant access** to commitment data.
- **View and manage on-call.** Make changes directly on the schedule with instant updates throughout the system.
- **See who is qualified and available for last-minute needs** and instantly communicate via text message, email or native app.
- **Fill open shifts** with new levels of efficiency and collaboration.

LEADERSHIP

- **View and manage schedules** across units, departments, facilities and enterprises.
- **Control what is viewed** and which features are available by area, manager, employee or job type.
- **View data organization-wide** and have the option to drill down by facility, department or unit.
- **Get reports sent directly** to your inbox for easy viewing.

APPLICATION FEATURES

Anytime, anywhere access to view schedules and take immediate action via mobile phone, tablet or computer.

Native app for iOS and Android with app notifications.

View and manage staffing house-wide from one screen with Super View.

Send announcements and broadcast open shift needs to qualified staff via text message, email or native app.

View and respond to staff requests via mobile device or computer.

Changes made from anywhere are instantly updated across the system.

Use templates to quickly build schedules.

Define varying commitment types and durations, such as total number of shifts, number of holiday shifts, number of on-call shifts, and number of weekend shifts per physician.

Auto-generate draft schedules that consider all predefined rules for a given period, with capability to review and publish or generate a new draft.

Track commitment compliance in real time as you schedule, and for the long term through reports.

Simplified integration with other HR systems.
