

Protect your Skilled Nursing Facility from the impact of COVID-19 outbreaks

SNFs are particularly vulnerable to the spread of COVID-19

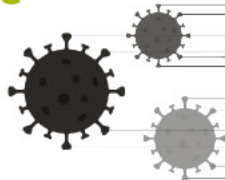

SNF mortality rates directly correlate with the rate of spread in communities¹

More than 40% of COVID-19 deaths were related to SNFs through June 2020²

Almost 50,000 nursing home residents died from COVID-19 through mid-August 2020³

CMS is strongly monitoring infection control and holding SNFs accountable

Fines of up to **\$20,000** for infection control deficiencies⁴

More than **\$15 million** in penalties have been imposed for noncompliance⁴

\$2.5 billion allotted for performance-based infection control measures⁵

Implement a proactive, data-driven approach to infection control with ABILITY INFECTIONWATCH

Identify and monitor infection risk using built-in McGeer criteria

Access a built-in respiratory line list for easy report submission

Monitor/track everyone who enters the building to prevent outbreaks

Simplify infection control surveys with easily accessible reports

Take the next step to better infection control!

Yes! I want a free consultation
