

TAKE THE SIMPLER PATH TO Clinical & Financial Quality

You entered the healthcare field to provide residents with high-quality care.

Your excitement and dedication made you eager to improve outcomes at your skilled nursing facility.

OBSTACLES ALONG THE WAY

Though resident care has many rewards, you probably encounter challenges that often stand between you and your goals:

REIMBURSEMENT STRESS

CLINICAL QUALITY PERFORMANCE

DOCUMENTATION INTEGRITY

OPERATIONAL BURDEN

HOW YOU OVERCOME THEM

Manage PDPM and Medicaid revenue with real-time and predictive reporting

Catch inconsistencies between claims and the MDS with a built in Triple Check

Ensure MDS accuracy before assessment submission with logic flags

Stay on top of infection surveillance with real-time, actionable reports

Mitigate risk and liability with incident tracking and trend analysis

Drive continuous improvement using a Five-Star Performance Dashboard

WHAT SNFS ARE SAYING

"ABILITY has given me more information to deliver better care."
- David Brown, Healthcare Administrator, QLC

"ABILITY CAREWATCH has helped us be more prepared."
- Joan McCabe, Director of Quality Assurance, Asbury Communities

"Every number generated through the software represents a resident – and improving the numbers improves the quality of care our residents receive."
- Renee Galeassi, Clinical Compliance Manager, John Knox Village
