

THE ABILITY CLINICAL SUITE FOR SKILLED NURSING FACILITIES

- ✓ Care quality management
- ✓ Reimbursement optimization
- ✓ Real-time analytics
- ✓ Regulatory compliance
- ✓ CMS reporting
- ✓ Better resident outcomes

MDS OPTIMIZATION

Manage and optimize MDS assessments, revenue, star ratings and QAPI

- Quality performance monitoring
- Accurate MDS documentation
- Quality measure benchmarking
- Revenue projections including PDPM calculator
- Survey preparedness

INFECTION PREVENTION

Expand infection prevention and control with comprehensive surveillance and reporting

- Real-time facility map of active infections
- Comprehensive reporting (enterprise, line lists, infection rates)
- Vaccination tracking for residents, staff and volunteers
- Built-in McGeer criteria forms for entering infections
- Antibiotic stewardship
- HAI monitoring

UB OPTIMIZATION

Ensure claims accurately reflect clinical documentation prior to submitting to CMS

- Automated Triple Check process
- Clinical and financial coordination
- MDS and UB-04 data consistency
- Optimized reimbursements and minimized audit risk

RISK MANAGEMENT

Reduce risk and improve resident safety with comprehensive incident management

- Predefined incident tracking forms for falls, abuses and more
- Document complete investigative process
- Record root cause analysis
- Enterprise reporting

PBJ REPORTING

Optimize staffing, boost compliance and prevent a star rating reduction with automated PBJ reporting

- File scrubbing, reporting and accurate transmission to CMS
- Boosts compliance and star rating management
- Easily transmits to Quality Improvement and Evaluation System (QIES)
