

## WHY LESS IS MORE FOR REVENUE CYCLE SUCCESS

Does your hospital revenue cycle have you running in circles? If you use multiple platforms to handle your various RCM tasks, it might feel that way. But you're not alone – 30% of hospitals use two or more revenue cycle management vendors.<sup>1</sup> Find out why you shouldn't be one of them.

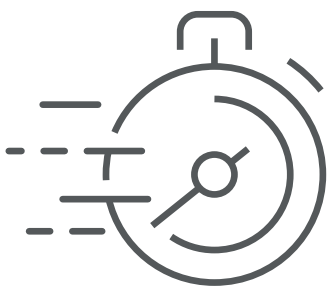

### Why consolidate your RCM functions to one platform?

#### #1 SIMPLICITY

- Log in once and get right down to business
- View, access and manage all payers and patients in one place
- Receive a single invoice at the end of the month that you can pay online

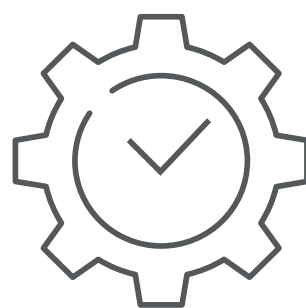

#### #2 EFFICIENCY

- Align your front and back offices with a single set of tools
- Finish faster with applications that are built to work together
- Get fast, accurate answers to your technical support questions from a dedicated team

#### #3 INTEGRATION

- Use applications that are completely compatible with your electronic health records (EHR)
- Experience fast, easy implementation with ongoing training to learn product features
- Enjoy bundled pricing: The more applications you use, the less you pay

### DISCOVER THE POWER OF ONE

One Login

One Password

One Invoice

One Support Team

One Platform

Put the power of one to work for your organization. [View this helpful eBook](#) and learn how easy it is to uncomplicate your RCM process.
