

Inovalon ValueCompass™

Improve quality outcomes and performance with real-time insights

Simplify provider care gaps reporting and enhance your provider engagement strategy with a single solution that delivers direct, up-to-date performance data and actionable insight into patient care gaps.

Powered by the Inovalon ONE® Platform, **Inovalon ValueCompass™** is a web-based application that empowers payers and providers to access timely information regarding their patient populations and the actions needed to improve quality, reduce costs, and maximize incentives – all within their current workflow.

INFORM EACH PATIENT ENCOUNTER WITH ACTIONABLE DATA

Improve quality outcomes and risk score accuracy with delivery of actionable patient and gap lists to your providers

Maximize financial incentives by tracking measure performance against targets and identifying focus areas

Enhance efficiency by bringing all provider reporting onto one platform and aligning with regulatory reporting

Reduce costs by analyzing healthcare utilization patterns and informing utilization management efforts

Drive health equity by better understanding your population quality outcomes across key social determinants of health

Inform strategy with performance benchmarking against peer, program, and organizational targets

CUSTOMER TESTIMONIALS

“ValueCompass enables us [to] make it obvious to our providers where their gaps are, what their expectation is to meet and exceed standards, and exactly what they can do to improve their care practices.”

– Provider Network Manager

“With ValueCompass, we have eliminated the use of Excel spreadsheets as our primary means of sharing data with providers. This has resulted in increased program efficiency and greater confidence that the data we’re delivering is accurate and timely.”

– Health Plan Quality Manager

VALUECOMPASS DELIVERS:

Streamlined management and oversight

Reduce manual errors and administrative costs with self-service configuration tools, certify-before-publish features, and custom patient attribution and provider hierarchy settings.

Accelerated implementation and performance

Quickly deliver quality performance metrics to provider partners via easy-to-use dashboards with easy data integration, accurate analytics, and single sign-on capabilities.

Insightful data visualization and reporting

Engage providers to close gaps in care and documentation through an interface that combines quality and risk metrics to deliver patient and measure level performance insights.

WHO BENEFITS

Health Plans

Improve provider engagement and insight through the delivery of accurate and actionable measure, provider, and patient specific insights

Inform quality and risk programs with an integrated view across quality, disease burden, care management, and utilization metrics

Network Providers

Gain transparency and achieve alignment on key metrics impacting performance in value-based and other healthcare programs

Drive targeted patient outreach programs informed by actionable lists of patients and their care and documentation gaps

Understand how your performance compares against your peers and program targets with comprehensive benchmarking capabilities

Increase effectiveness and efficiency with a single solution enabling full oversight and management of your healthcare initiatives

Minimal implementation required for health plans already connected to the Inovalon ONE® Platform

Patients

Experience improved care quality resulting from greater transparency and accurate, real-time data exchange between payers and providers

Achieve a better care experience with tailored provider engagement strategies informed by timely, comprehensive patient-specific data
