

# ScriptMed® Infusion

Bridging the gap so you can focus on your infusion patients, not your software.

The ScriptMed® Infusion module has been designed to optimize clinician time so they can focus on patient care. Supporting specialty infusion, home infusion, and ambulatory infusion patients, ScriptMed Infusion allows pharmacies to manage their patients holistically in a single system.

A specialty pharmacy software solution you can trust.

That's ScriptMed Infusion.

## ADVANTAGES FOR YOUR ORGANIZATION

### One system, end-to-end capabilities

Say goodbye to disparate pharmacy software and switch on the power of ScriptMed Infusion to supercharge your infusion patient management.

### Powerful reporting

Optimize your pharmacy's patient and economic performance with real-time clinical, operational, and financial reporting.

### Patient focused

Create a more seamless experience for the patient with automated functions, fewer touch points and more complete care.

### Site of care management

One system and one interface means less training, less room for errors, and improved efficiency from start to finish.

## ScriptMed Infusion

ScriptMed Infusion focuses on the holistic needs of patients with complex health conditions and high cost medication therapies, and the clinicians who provide care for them. This powerful solution provides unique and unmatched capabilities that allow specialty and infusion pharmacies to make a difference for those patients from start to finish.

## ScriptMed Infusion

### Clinician scheduling, documentation and billing

Handle all aspects of clinician and location coordination within one familiar and consistent interface.

### Benefit eligibility and billing automation

Dramatically reduce sources of delays and get the patient started on their treatment sooner.

### Complex compounding management

Manage and create compound drugs and item profiles for rapid and accurate deployment.

### Manage clean room quality

Seamlessly create and support entity level facility assessments within the ScriptMed platform.

### Total parenteral nutrition (TPN) management

TPN management removes the guess work and saves time with automatic dosing concentrations and volumes.

### Persona-driven

Designed with each user and job function in mind to drive efficiency and user satisfaction.

### Software that can keep up

Ultra flexibility allows for quick adaptation to the demands of complex cycles and transitions of care.

### DME pump and service management

Take the guesswork out of ongoing DME pump management, and easily track sales, rentals, and service.

## About Inovalon

Inovalon is a leading provider of cloud-based software solutions empowering data-driven healthcare. The Inovalon ONE® Platform brings together national-scale connectivity, real-time primary source data access, and advanced analytics into a sophisticated cloud-based platform empowering improved outcomes and economics across the healthcare ecosystem. The company's analytics and capabilities are used by more than 20,000 customers and are informed by the primary source data of more than 69.5 billion medical events across one million physicians, 611,000 clinical settings, and 350 million unique patients.
