

Building a Safer Future for Patients

How proactive safety strategies are transforming hospital care

Every patient deserves care without compromise. Yet, **preventable patient harm is still happening every day – but it doesn't have to.** Proactive strategies empower hospitals to predict and prevent harm.

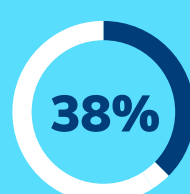

Proven Results From CHRISTUS Health

Proactive safety strategies and Inovalon's VigiLanz Safety Management Pro drove a **57% reduction in harm** over five years.¹

30+
per quarter

Near-miss reporting increased from two per quarter to 30+ per quarter with the simple tools that drive real engagement.¹

A targeted, data-informed fall prevention program led to a **38% reduction in patient falls**.¹

The difference? A shift from passive reporting to active reporting.

3 Ways to Drive Safer Outcomes

Make Reporting Easy

Safety data is only useful if it's captured. CHRISTUS Health doubled reporting in low-engagement areas by making processes simple.

Embrace Just Culture

A shift from blame to learning improves trust and transparency.

Leverage Real-Time Risk Detection

Spot trends early to prevent errors before they escalate.

Get Ahead of Harm With Inovalon's VigiLanz Safety Management Pro

No more missed warning signs with automated event detection.

Find patterns and act faster from custom reporting and insights.

Report in 30-60 seconds, or as fast as it takes to type it out¹ from fast, easy-to-use software.

CHRISTUS Health operationalized safety with simple and effective processes – and it worked.

We Help Make Every Patient Interaction Safer
