

Inovalon Simplifies Medicare Claims Resubmission, One Keystroke at a Time

Save time and eliminate guesswork to resubmit claims

Resubmitting Medicare claims using traditional FISS takes a lot of time, and a lot of keystrokes – **30, in fact**.

Now compound that process with a sluggish computer or internet, a must-take phone call, or some other time-consuming interruption.

Why do all this?

LOGIN 21 corrections **Paste to platform**
 TAB to Select **Cut copy paste**
 In FISS F1- function key **control number**
 – look up **ENTER** Two screens up
Reason code –
wrong DCN **Copy Medicare ID F3**
F3 - function keys
01 - enter 12 - inquiries **Paste ID**
Enter NPI Dates of Service **F6 – function keys**
Scroll to see most recent Reject Select Account
 F8 – function key **F11->** DCN copied and verified
F11 -> F3 - exit 21 Corrections **F11 ->**
 To see if can F9 back to Medicare or Manual Correction
Claim denied in error
Correct **Queued claim**

With **Claims Management Medicare Pro**, these speed bumps no longer matter because with **only eight keystrokes**, resubmitting those claims takes less time than ever.

When you can just do this:

- 1 Log in to Inovalon
- 2 Launch Claims Management Medicare Pro
- 3 Select “Advanced Search”
- 4 Paste PCN
- 5 Open Patient Information page
- 6 Select the wrench icon to correct and open UB-04
- 7 Make corrections
- 8 Adjust or resubmit
