

Electronic Record On Demand

Access digital medical records rapidly, securely, and cost-effectively

Cut the complexity out of medical record retrieval (MRR). Inovalon's Electronic Record On Demand™ delivers industry-leading connectivity, speed, and cost savings, so you can easily enter medical records and drive greater impact.

This solution provides secure, compliant access to the nation's largest electronic health record (EHR) systems, interoperability networks, and health information exchanges, supporting a wide range of healthcare use cases.

One system that powers:

- Quality measurement and reporting
- Risk adjustment programs
- Population health and care management initiatives

Key Benefits

-  **Stay ahead of regulatory changes**
No more scrambling to keep up. Get real-time updates from our regulatory experts, so your team always works with compliant records.
-  **Support multiple initiatives in one solution**
Power your quality, risk, and operational programs with data-rich records delivered in a single, streamlined solution.
-  **Simplify medical record retrieval**
Manage the full MRR process in-solution — fast, accurate, and backed by Inovalon's deep data history.

The Inovalon Difference

Nationwide connectivity
in all **50** states¹

6.1M+
Records retrieved annually²

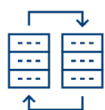

2.5M+ Analyzed records
for HEDIS® measures²

30+ HEDIS measures
supported for data parsing

Solution Features

Expert support for EHR retrieval.

Real-time clinical data retrieval
to inform stratification and
population health analytics.

Standard abstraction and coding
for risk adjustment.

Track progress easily with a
user-friendly interface designed
for transparency.

Medical record file creation to fulfill
submissions requirement.

Tap into Inovalon's MORE²
Registry® for a deeper, more
complete picture.

Supplemental data file creation to
support quality gap closure.

Customer-led UI design for
frictionless user experience.

HEDIS® is a registered trademark of the National Committee for Quality Assurance (NCQA).
