

RCM Intelligence: Real Results, Meaningful Impact

Healthcare teams are drowning in data and starving for insight. Most systems surface numbers, not the “why” behind denials or delays. That’s why providers are turning to smarter tools that deliver clear, actionable intelligence.

That’s where Inovalon’s RCM Intelligence™ comes in. Get detailed data insights on your revenue cycle to eliminate revenue roadblocks, predict cash flow, improve payer relations, and lead your organization to financial excellence with confidence.

RCM Intelligence doesn’t just track performance. It helps you make real progress, with a proven **21% average improvement in cash flow.**¹

What Finance Leaders Are Saying

RCM Intelligence provides insight my EHR can’t. It’s easy to use and helps us hit strong first pass yield rates. I can see what’s being worked, where training’s needed, and how the team is performing.”

- Patricia Bemis,
Revenue Cycle Director,
Brattleboro Retreat

It’s not just about clean claims – it’s about engaging everyone in denial prevention. With RCM Intelligence dashboards, I can show our CFO why we’re winning.”

- Brandon Wietting,
Revenue Cycle Director,
Massac Memorial Hospital

This is data I can trust – directly from the payer. It saves me from manually building reports and clearly shows where workflows need fixing.”

- Candice Copeland, AVP,
Revenue Cycle Management,
Acenda Inc.

Inovalon built a system that understands what billing teams face every day.”

- Megan Weaver,
Business Office Director,
Mason District Hospital

Revenue You Can Rely On

Join the growing number of providers using analytics to drive better financial outcomes – including a 21% improvement in cash flow¹, better insights, and more clarity on your organization’s unique revenue cycle opportunities.
