

Schedule Management

Make better scheduling your team's superpower

What if scheduling wasn't a daily fire drill, but your team's greatest strength? Inovalon's Schedule Management™ makes it possible. Clinical leaders get control, and staff get the flexibility they desire.

Built for healthcare, this cloud-based, mobile-first software uses smart automation to build balanced schedules, adapt to last minute changes, and reduce overtime across care settings.

Ditch the phone tag, paper schedules, sticky notes, and spreadsheets. Whether you're running one unit or an entire enterprise, our solution scales with you.

Staff can manage schedules on the go, get alerts for open shifts and changes, request PTO, swap shifts, and sync to their calendars – so you lead care, not chaos.

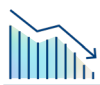

Advantages for Your Organization

1

Fill shifts fast with a native mobile app that lets staff claim, swap, and manage schedules on the go – so you're always covered, no scrambling, no surprises.

2

Lower premium labor costs with real-time insights that help reduce overtime, agency reliance, and incentive pay.

3

Prevent burnout with fair, flexible schedules that ease stress, boost morale, and help build a team that stays.

4

Make smarter staffing decisions with executive dashboards that turn workforce data into real-time action.

The Inovalon Difference

Schedule Management isn't just a better way to build schedules; it's a smarter system built for the complexities of healthcare staffing. With color-coded alerts, super view dashboards, mass texting, and mobile access, managers and clinical leaders get total visibility and control, and staff get the flexibility they crave. Plus, go live in just two weeks with minimal training and full support.

How It Works

- ✓ **Build balanced schedules fast** with drag-and-drop tools, easy to use shift templates, and auto-scheduling.
- ✓ **Manage system-wide staffing** from one screen using an enterprise level view for complete visibility.
- ✓ **Spot over/understaffing instantly** with color-coded visual alerts.
- ✓ **Give staff more flexibility** with smart self-scheduling and mobile access.
- ✓ **Fill open shifts faster** by broadcasting needs via mass text or email to qualified staff, no phone calls required.
- ✓ **Make changes with confidence** by syncing updates made anywhere instantly across the system.
- ✓ **Support real time response** to call-offs, shift loads, and staffing needs changes.
- ✓ **Reduce admin work** with seamless integration into your existing HR systems.
- ✓ **Give staff more control** with self-scheduling, mobile access, and personal calendar sync.
- ✓ **Prevent burnout and ensure compliance** by setting overtime and hours-worked rules by job type or area.
- ✓ **Track credentials and expirations** to stay audit-ready and avoid compliance risks.
- ✓ **Recognize great work** with shout outs for birthdays, anniversaries, and extra shift pickups.
- ✓ **Stay one step ahead** with the real-time NOW screen to see what's happening across the organization.
