

5 Signs It's Time to Evaluate Your Revenue Cycle

Struggling with inconsistent cash flow but not completely sure why?

You might need a better way to analyze your RCM data.

5 Signs It's Time for an Analytics Upgrade

1 | Revenue blind spots

You don't know how much money is coming in, or when.

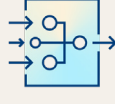

2 | Recurring denials

You're battling claims denials without a clear picture of where they're coming from.

3 | Complex payer relations

You lack the right data to negotiate effectively.

4 | Reporting breakdowns

You're pulling data from multiple sources and compiling reports by hand.

5 | Repetitive work

Staff are frustrated with manual tasks and productivity-busting processes.

Claims Denials Aren't Just Confusing: They Strain Operations and Finances

78%

of healthcare providers say denials are a significant challenge.¹

30%

of providers say claims denials are their #1 revenue cycle priority.²

50%

of hospitals recover less than 50% of initially denied claims.²
