

Claims Management Medicare Pro

Manage Medicare billing with speed and confidence

Easily understand your Medicare cash flow, claims status, and eligibility issues. Inovalon's Claims Management Medicare Pro™ gives you the visibility and automation you need for Medicare billing, so you can fix issues before they turn into denials.

Get instant access to FISS data, manage claim issues, and automate corrections across complex workflows. And with reports that show receivables at risk and cash coming in, your team can eliminate payment guesswork and stay ahead of delays.

Advantages for Your Organization

1

See every dollar coming

Monitor payments, identify delays, and get real-time updates that help you predict and protect Medicare revenue.

2

Correct issues before denials

Address at-risk claims or eligibility issues before they turn into rejections so payments stay on track.

3

Automate claims and checks

Track status, check eligibility, and fix errors across systems without toggling between screens or wasting hours on manual reviews.

4

Verify coverage automatically

Receive weekly Medicare eligibility checks, including secondary payer verification, to avoid submission surprises and payment slowdowns.

5

Get full visibility in one place

Track Medicare claims, payments, and eligibility from a single solution – so your teams can act faster, stay aligned, and identify issues before any revenue delays.

Who Benefits

Over 50,000 active, licensed customers¹ use Inovalon solutions.

Physician practices

Hospitals

Skilled nursing facilities

Billing companies

Rural health clinics

Health systems

Home health organizations

Software vendors

Solution Features

Payment forecast reporting

View real-time reports that show actual and expected payments so you know what's coming in each day.

At-risk claim identification

Eliminate blocked revenue by seeing multiple claim statuses that require action including RTP, suspended, denied, and more. For home health teams, this includes NOA and NOE claims.

Automated error correction

Use the click-to-fix feature to automate multi-step corrections and reduce time spent resolving denials.

Proactive eligibility alerts

Get alerts when patients switch from Medicare Part A to B or from traditional Medicare to Medicare Advantage so billing stays accurate and on time.

Medicare eligibility verification

Run weekly Medicare checks that confirm eligibility and flag if Medicare is the secondary payer.
