

Direct Data Entry Verification

Fast, secure access for Medicare claims

For many billing teams, especially those with experienced staff, using FISS is second nature; it's a direct way to manage claims entry, rejections, and updates. Inovalon's Direct Data Entry Verification™ provides secure, real-time access to FISS for all your Medicare Part A claims, unlocking instant processing visibility and claims validation.

Scalable and with no per-user limits, Direct Data Entry Verification grows with your team and pairs seamlessly with Inovalon's Claims Management Medicare Pro™ to support evolving staffing needs across the revenue cycle. This helps seasoned billers stay efficient and allows new team members to ramp up faster with advanced technology.

Advantages for Your Organization

-  **Easily access Medicare Part A**
Connect securely to the Medicare FISS system to key in claims, check status, and fix issues without delays.
-  **Save time and speed up reimbursement**
Streamline workflows to reduce rework, resolve claims faster, and keep revenue flowing.
-  **Scale your team at no extra cost**
Add as many users as you need without worrying about per-user fees or access restrictions.
-  **Reach every MAC nationwide**
Connect to all Medicare Enterprise Data Centers and MACs through one secure, reliable solution.

Solution Features

Secure connection to Medicare systems

Access CMS-approved and HIPAA-compliant connections with nationwide access to Medicare Enterprise Data Centers and MACs.

Scales to fit any team size

Get the support you need, regardless of organization size, with no hardware limits or per-user constraints.

Fast access with one click to FISS

Quickly reach the FISS login screen to get to work without unnecessary navigation.

FISS-optimized TN3270 emulator included

No need to purchase separate emulation software – ours is built in and configured for FISS.

Browser-based setup with minimal IT lift

Start quickly with web-based access that works with today's most-used browsers and requires little IT support.
