

Medicare File Submission

Simplify your Medicare claims process

At Inovalon, we understand there is no “one size fits all” approach for claims submission and processing – you should decide on the right fit for your facility.

Medicare File Submission gives you the ability to efficiently and cost-effectively transmit and process your Medicare claims. You will save time and collect faster payments with a customizable claims solution that meets the unique needs of your organization.

Advantages for your organization

1

Increase efficiency

Benefit from easier, faster submission and receipt of claims and remits

2

Eliminate manual work

Say goodbye to manual batch uploading, submission of claims, and downloading remits

3

Improve cash flow

Accelerate claims processing and reimbursements for more predictable forecasting

4

Proactive corrections

Resolve issues long before the rejected claim gets back to your office

Who benefits

Critical access hospitals

Home health agencies

Behavioral health providers

Skilled nursing facilities

Physician offices

Solution features

Automated submission to Medicare for claims and remits (837/835) through server enterprise solution

Direct connectivity to all Medicare Administrative Contractors (MACs) nationwide. No need for concern should your MAC implement new EDI technology or if you happen to inherit a new MAC because of a contract award – Inovalon handles all connectivity to the MAC on your behalf.

User-friendly, intuitive interface that can be used with any claims creation tool

Web browser history maintains a history of remits and responses for 60 days

Easy implementation, with minimal IT involvement. Inovalon web-based services are compatible with current versions of industry-leading browsers.
