

Simpler Pharmacy Scheduling Is a Tap Away

Predictive scheduling makes it easy to get staffing levels just right

Developing a complex pharmacy schedule that meets the demands of your business, enables stellar customer service, and promotes employee job satisfaction is a complex job, especially when you factor in all the moving pieces.

- ✓ **Part-time pharmacists and technicians**
- ✓ **Full-time pharmacists and technicians**
- ✓ **Floating pharmacists and technicians**

Challenges of Pharmacy Scheduling

Gain Instant, Real-Time Access to Your Pharmacy Schedule

With Inovalon's [Schedule Management™](#) you can manage your schedule from any device. Fill open shifts in minutes, communicate schedule changes with a tap, and gain the visibility you need to prevent overtime, avoid over- and under-staffing, and control labor costs.

Why Pharmacies Trust Schedule Management

Prevent over-and under-staffing with predictive analytics

Identify trends in prescription fills and recurring patterns so you can schedule around your busiest times.

Get more insight into future prescription fills so you can ensure you're properly staffed.

Present daily management insights into staffing needs.

Empower staff and boost morale

Eliminate calls from staff looking for their schedules.

Offer staff 24/7 access to schedules on any device.

Enable staff members to request time off, volunteer, and swap shifts.

Save time and money with simpler staff scheduling

Streamline staffing with scheduling templates available for daily, weekly, monthly, or longer.

Detail staff availability along with their skills to match the right person to the right shift.

Create transparency among employees, the scheduling manager, and upper management.

Plus, add a Time Clock option to simplify further, track staff punches, approve timecards, and allow staff to clock in from their phones with Inovalon's [Attendance Management™](#).

See It In Action!

Don't take our word for it.
