

Gaps in Care

Improve clinical outcomes with a full view of patient history

Providers often lack timely, connected patient data that spans across multiple care settings. Without visibility into care gaps and disease burden, it's difficult to improve outcomes, meet quality standards, and reduce costs.

Fueled by the industry's largest primary source dataset, Inovalon's Gaps in Care™ provides clear, actionable recommendations for each patient's healthcare journey.

Drawing from 160+ data sources,¹ this solution empowers healthcare professionals to quickly identify and close care gaps – driving smarter, data-driven decisions at the point of care.

Advantages for Your Organization

-  Reduce inefficiencies in care pathways.
-  Make better informed treatment decisions.
-  Get real-time notifications to spot shortcomings in care.
-  Improve outcomes with the full picture of patient health.
-  Ensure the best care plan is applied to the right patients.
-  Spend more time engaging and educating patients.
