

Inovalon Healthcare Data Lake

Your single source of truth to store, enrich, and analyze your data

Give your analysts the power to uncover insights fast, act on healthcare initiatives with confidence, and drive better outcomes for your members – without the headaches of chasing down data.

Instead of wasting time system-hopping or wrangling outdated processes, your team gets one centralized, secure hub for all your data. Automate time-consuming tasks, cut through the noise, and deliver the answers your team needs in minutes, not days.

Inovalon Healthcare Data Lake™ delivers:

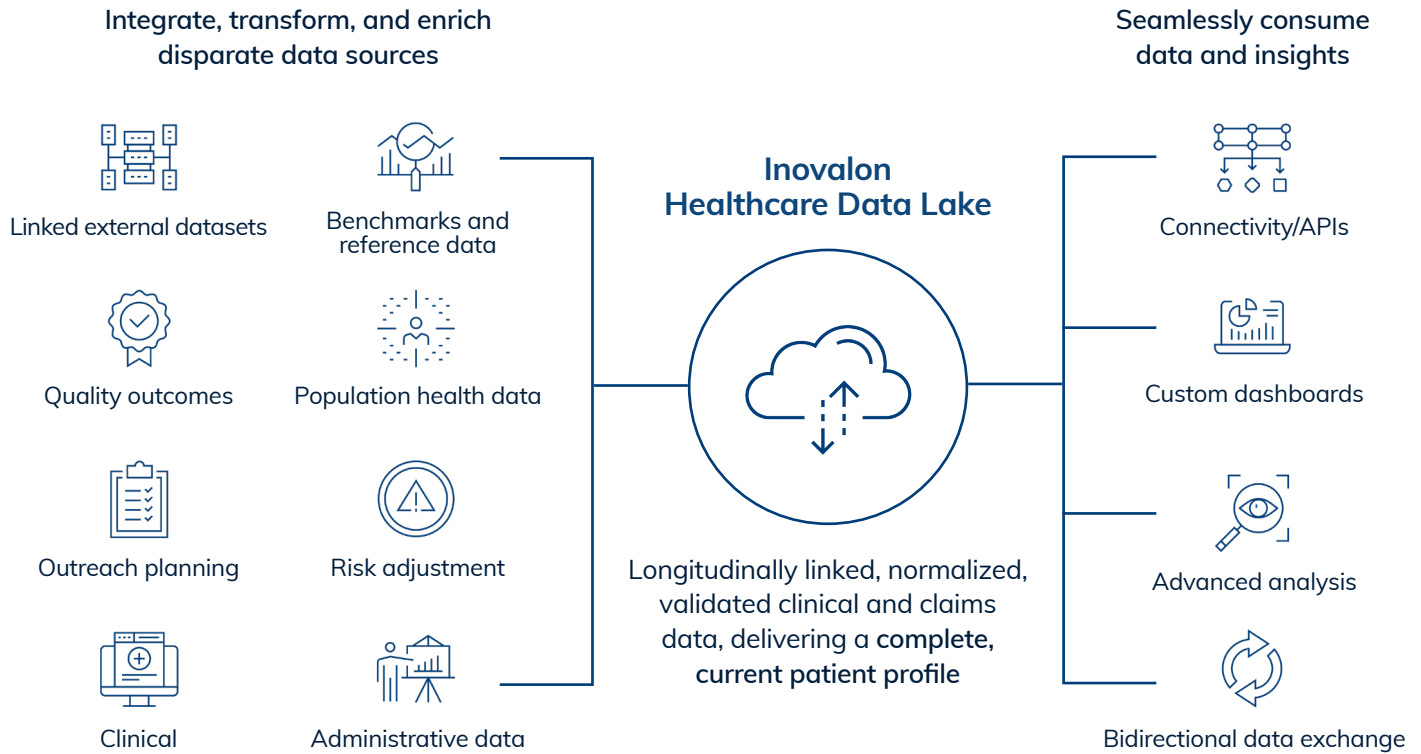

- Seamless, accelerated data integration, aggregation, and normalization
- Your data, enriched with best-in-class data from across the industry
- Actionable insights to inform strategies and guide decision making

Key Benefits

Get answers to your toughest questions with a single, unified data repository built from complex, multi-source data and enriched with the industry's largest healthcare dataset.

- 1** | **All your data in one place.** No more jumping between systems. Access everything in one centralized solution, so your team can spend less time searching and more time making smart, data-driven decisions.
- 2** | **Faster insights, less waiting.** Automate your data processes and get the answers you need in minutes, not hours. Say goodbye to delays and hello to real-time insights.
- 3** | **Secure, organized, and ready to use.** Rest easy knowing your data is always protected, compliant, and easy to work with, so your team can stay focused on improving care.

How it Works

Solution Features

Create a full patient profile with all available data domains in one place.

Easily see and share your data with customizable dashboards.

Pre-written queries and common use-case tables streamline data analysis.

Nationwide connectivity and real-time data streaming deliver a more complete and current patient profile.

Supports standard-based data exchange, including the HL7® FHIR® standard, our solution enables on-demand clinical data retrieval and seamless two-way data exchange.

HL7, FHIR and the FHIR [FLAME DESIGN] are the registered trademarks of Health Level Seven International and their use does not constitute endorsement by HL7.
